

## Holidays and Holy Days

**LIVING** in a Catholic country, one would know about the link between holidays and holy days. Most holidays are religious festivals - unlike Britain where, apart from Christmas and Easter, we have 'bank holidays'. Even in Britain, however, the clue is in the name: 'holiday' is obviously a variant on 'holy day'.

It is not always appreciated that it is the Jewish-Christian tradition which gives us special days of rest and recreation once a week, as well as the idea of taking 'holy days' as 'holidays', times of rest and recreation. We have a very well-developed idea of 'rest and recreation', not least by joining the Jewish Sabbath – Saturday – at the end of the week with the Christian Day of Resurrection – Sunday – at the beginning of the week to form 'the weekend'. The Church has tried to keep pace with this by starting Sunday celebrations on Saturday nights. People who can't get to Mass on Sunday can keep the Sunday obligation by going to Mass on Saturday night. The problem with the weekend is that it has become so busy with family and leisure activities – not to mention the business of housekeeping and shopping – that sometimes the bit that gets missed out is the one vital bit.

This is the time of year when families go off 'on holiday'. Perhaps a beach in Spain. Perhaps a seaside resort in Britain. Schools – pupils and teachers – enjoy a long break, though some educationalists worry about such a gap in the teaching programme and some parents worry about child care in these months. It seems we owe the origins of the long holiday to the need to free up children and young people to work in the fields, gathering the harvest. Growing from this is the opportunity university teachers have in what are called 'vacations' to concentrate on research. Students too can go travelling or earn extra cash.

Just as the Church has to go with 'the weekend', so we have to acknowledge that the summer break is where one lot of activities and meetings ends and another lot starts. Nowadays we have autumn programmes. But the clue to all our resting is in the word 'holiday'. Let us remember the importance of 'holy days' as well as 'holidays'.
